

ALASKA

Anchorage & Southbound Glacier Cruise Celebrity Millennium

June 13th – June 23rd, **2023**

11 Day Tour / 7 - Night Cruise

Whether you have cruised Alaska before, or Alaska is a new destination for you this itinerary is sure to bring that “Wow Factor.”

Leaving home, we fly to Anchorage Alaska where we will spend the next three nights. The City of Anchorage is a very interesting and welcoming way to begin your relaxing Alaskan Vacation. We leave Anchorage on day four and head south to the port of Seward travelling along the Seward highway. This drive is a journey in itself. Spectacular scenery and maybe even a little wildlife Do not forget your binoculars & camera! The next seven days will be spent viewing spectacular sunsets, massive glaciers and fjords, the majestic mountains, and wildlife in a multitude of habitats. You might even see pods of whales following the cruise ship as we have seen in past years! The Hubbard Glacier is an absolute highlight of this voyage. You cannot see on land only the wonders of being up close and personal offers you by sea. Enjoy all that nature can offer in this uniquely beautiful area of the continent.
